

A heart shape is formed by a dense cluster of overlapping translucent circles. The circles vary in size and are colored in shades of blue, purple, and green, creating a vibrant, multi-colored effect. The background is solid black, which makes the glowing circles stand out prominently.

A VIBRANT HEART

The Heart is the
source of an
e.m. signal that
creates harmony

.....

.....by lowering
the noise in the
human field

A graphic illustration of a human brain in silhouette, filled with a dense pattern of red musical notes and symbols. A red waveform, resembling an EEG or ECG trace, runs horizontally across the bottom of the brain silhouette. The background is black.

Like an orchestra conductor that
transforms sounds into harmony

We create a place to access higher faculties, different experiences

MIND: not rational....

...but open mind, resonating with....
beauty, love, happiness

A surreal illustration of a large, detailed eye with a blue iris. From the pupil, a large number of small, colorful birds in various colors (red, yellow, blue, green, purple, orange) are flying outwards, filling the upper right portion of the frame. The background is a light blue sky with soft, white clouds. In the top left corner, there is a small orange horizontal bar.

An eye that

"The most intimate aspect of reality is invisible and cannot be perceived with the eyes but with a vibrant heart. The resonance of heart oscillations with universe oscillations is the essence of beauty"
