About Us

Bummy Edizioni is an independent publishing house dedicated to **children**.

Our books have multiple objectives for every girl and boy:

- encourage the **freedom** to ask questions and why not, give answers on whatever topic comes to mind (every child has questions to which not even adults can find answers);
- **look at the world from different perspectives**;
- stimulate the **imagination** through the **exploration** of **images** and **words**;
- **read the books** for **fun**.

We believe that our books should respond to the **emotions** and needs of every child and that they can be read **without limits or rules**.

Children love to linger on the same pages, they enjoy skipping over others, they love leafing through the book just looking at the images, they love learning the text by heart and above all, they like it when they are not asked too many questions about what they have read.

We also believe that adults (parents, teachers...) must guide them and provide them with the right tools so that they acquire **autonomy** and **freedom in interpreting texts**.

And even more importantly, that they know how to **stimulate amazement and fun through the art of reading, telling and inventing stories**.

Inspiring

Nourishing oneself with **sunlight** is an act of pure **faith**—a true hymn to **life**. And **sunflowers** embody this **beautifully**. Their vibrant presence symbolizes **light**, a **love for life**, **ambition**, and **perseverance**.

But not everyone knows the secret of these remarkable flowers. Hidden within their golden petals are **tiny creatures** who, after each **sunset**, work tirelessly to create **magical sunflower dust**. This dust drifts through starry skies, slips into homes, and gently **illuminates the world's future**.

Because every being deserves happiness, though sometimes, it takes a little magic—or someone special—to remind them of it.

Fairy-tale

Once upon a time, there was a story—sweet and bitter—of a house filled with the warm scent of butter biscuits and apple pie.

A house brought to life through stories and fairy tales of every kind, built on a day undefined, in a moment so fleeting yet so vast it stretched across the years.

A house that felt like a dream—or perhaps a spell—but is now real. And every day, it opens its doors to visitors from all around the world.

Spellbinding

You don't need much to set off: a tunnel, a playground, two children, a rabbit. And suddenly, every corner transforms into a world to **explore**, where **reality** and **dream** intertwine.

When the **journey** ends, you realize that everything was already there, hidden from those who stopped looking.

Or perhaps it never ends: because those who know how to see with a **child's eyes** always find new **wonders**.

A silent book that celebrates the wonder of **childhood imagination**, where every game becomes an adventure and every place a universe to discover.

Powerful

The Moon's guardian had one clear task: to take care of her every night.

But when the **Moon** disappears, he sets off on a journey where each step raises new questions.

Among whispering dry trees, lonely scarecrows, lifeless seas, and melting ice, the guardian will discover that the world needs him more than he ever imagined.

A **poetic and powerful story** about the importance of taking **care of the Earth**.

FONT

Bummy Edizioni is attentive to inclusion issues and for this reason has chosen to use a font created for dyslexic people for its books.

The Font is called: **OpenDyslexic**.

OpenDyslexic is a new open source font created by Abelardo González to increase readability for readers with dyslexia. The typeface includes Regular, Bold, Italic, and Bold-Italic styles and two fonts: OpenDyslexic and OpenDyslexic-Alta.

The font is continuously updated and improved based on the contribution of other dyslexic users.

The letters have marked bottoms to indicate their direction. Thanks to this you are able to quickly understand which part of the letter is at the bottom, which helps you recognize the correct letter and sometimes helps prevent your brain from "rotating" them.

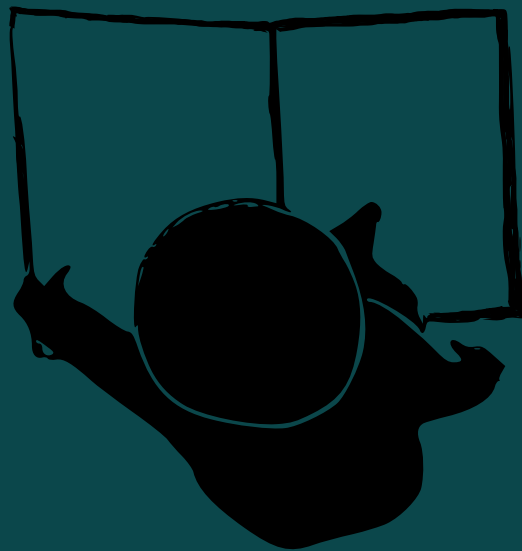

Consistently weighted funds help strengthen the text line.

The unique shapes of each letter help prevent confusion through reversal and swapping.
