## Trust Key to Italy

We will be delighted to assist you in handling all the requirements for your move.

Our services are born from the awareness of the difficulties you may encounter when relocating to a new country or city.

**Key to Italy** offers a personalized service based on the client's needs. Finding a new home, identifying a school for your children, and managing administrative tasks can reduce the time and energy you have for other professional and recreational activities. That's why it's important to rely on specialists who will do all this for you. Our goal is to provide clients with a streamlined relocation process, free from bureaucratic complications and the burden of basic logistics.

Starting a new life in an unfamiliar environment involves some initial choices that depend on the client's expectations and the quality standards they wish to maintain. The quality of life in a neighborhood, the availability of services, and the functionality of public transport are all factors that only someone who truly lives in that specific city can accurately evaluate and convey in effective consultancy.

# Our services include

- Personalized consultancy in choosing the destination that best suits your needs and professional profile
- Assistance in planning your move, for both your personal belongings and pets
- On-site reception and neighborhood identification, finding accommodation, either for rent or purchase, with targeted property preselection and in-person visits

- Possible assistance in job search, CV preparation according to local standards and language
