

“Mr. Brush”

Technical Sheet

Playing area (minimum):

4 m width x 4 m depth

Lighting requirements:

In case of performance in a theatre or outdoor (by night) the show needs lights to illuminate the stage and the part of the audience closest to the stage.

Sound requirements:

Theatre:

The music of the show is provided by the computer of the Antonio Brugnano Teatro Company. The computer has to be connected by cable to the theatre's audio mixer.

Outdoor:

The company has a sound system sufficient for 100/120 spectators. For a greater number of spectators, the organization will have to provide the most suitable audio system.

Set up time (scenery): 2 hours

Strike time (scenery): 25 minutes
