WALLS TO TALK ABOUT

Omexco is a Belgian brand of fine wallcoverings, founded in 1976. In our atelier close to Brussels, we design and manufacture exquisite wall decorations to dress your rooms in tactile beauty. Printed, woven or natural, each one of our creations is custom cut to bring poetry to your space. Reducing our environmental footprint is at the heart of every decision we make, since the seventies. We don't cover your walls, we make them stand out.

BELGIAN SAVOIR-FAIRE

OMEXCO
Fine Belgian Wallcoverings

As an established designer and producer of luxury wallcoverings, we control the whole process from the original idea all the way to the production process and the shipping of the final product. This allows us to always offer a flawless high-end product.

We don't cover
your walls, we make
them stand out

A team of in-house designers is in continuous dialogue with a highly qualified production team to create new designs, with subtle colours and unique textures.

A lot of research and development goes into the creation of those new designs in order to offer an ever more qualitative product.

24 hour shipping

A full range stock-holding enables us to offer a swift and flexible cut length service. An efficient customer service and warehouse team do their utmost to ensure that every order is shipped world wide within 24 hours.

Sold by the metre, no minimum

Custom service

Over the years, we acquired a broad expertise in printing on non-woven and textile wall-covering. Our design studio also offers a custom colouring or design service on request.

OUR CONTRIBUTION TO A
MORE SUSTAINABLE FUTURE

Renewable energy

All products made in Belgium are manufactured with solar energy coming from the panels on the roof of the mill. By 2024, we will cover more than 100% of our electricity needs with 3500 m² of solar panels, thereby saving 300 tons of CO₂ each year.

No PVC or
harmful chemicals

We work exclusively with water based printing pastes, without PVC, solvents, formaldehyde or heavy metals.

FSC certified
partners

All non-woven products respect the principles of responsible forestry.

Recycled materials

All our non-wovens contain 50% or more recycled fibres and many of our natural wallcoverings are made with recycled content. Latest development: A non-woven collection with 100% recycled fibres.

Reuse of water

Rainwater is recovered and used in our production process. By 2024, 50% of waste water will be treated and reused for production.

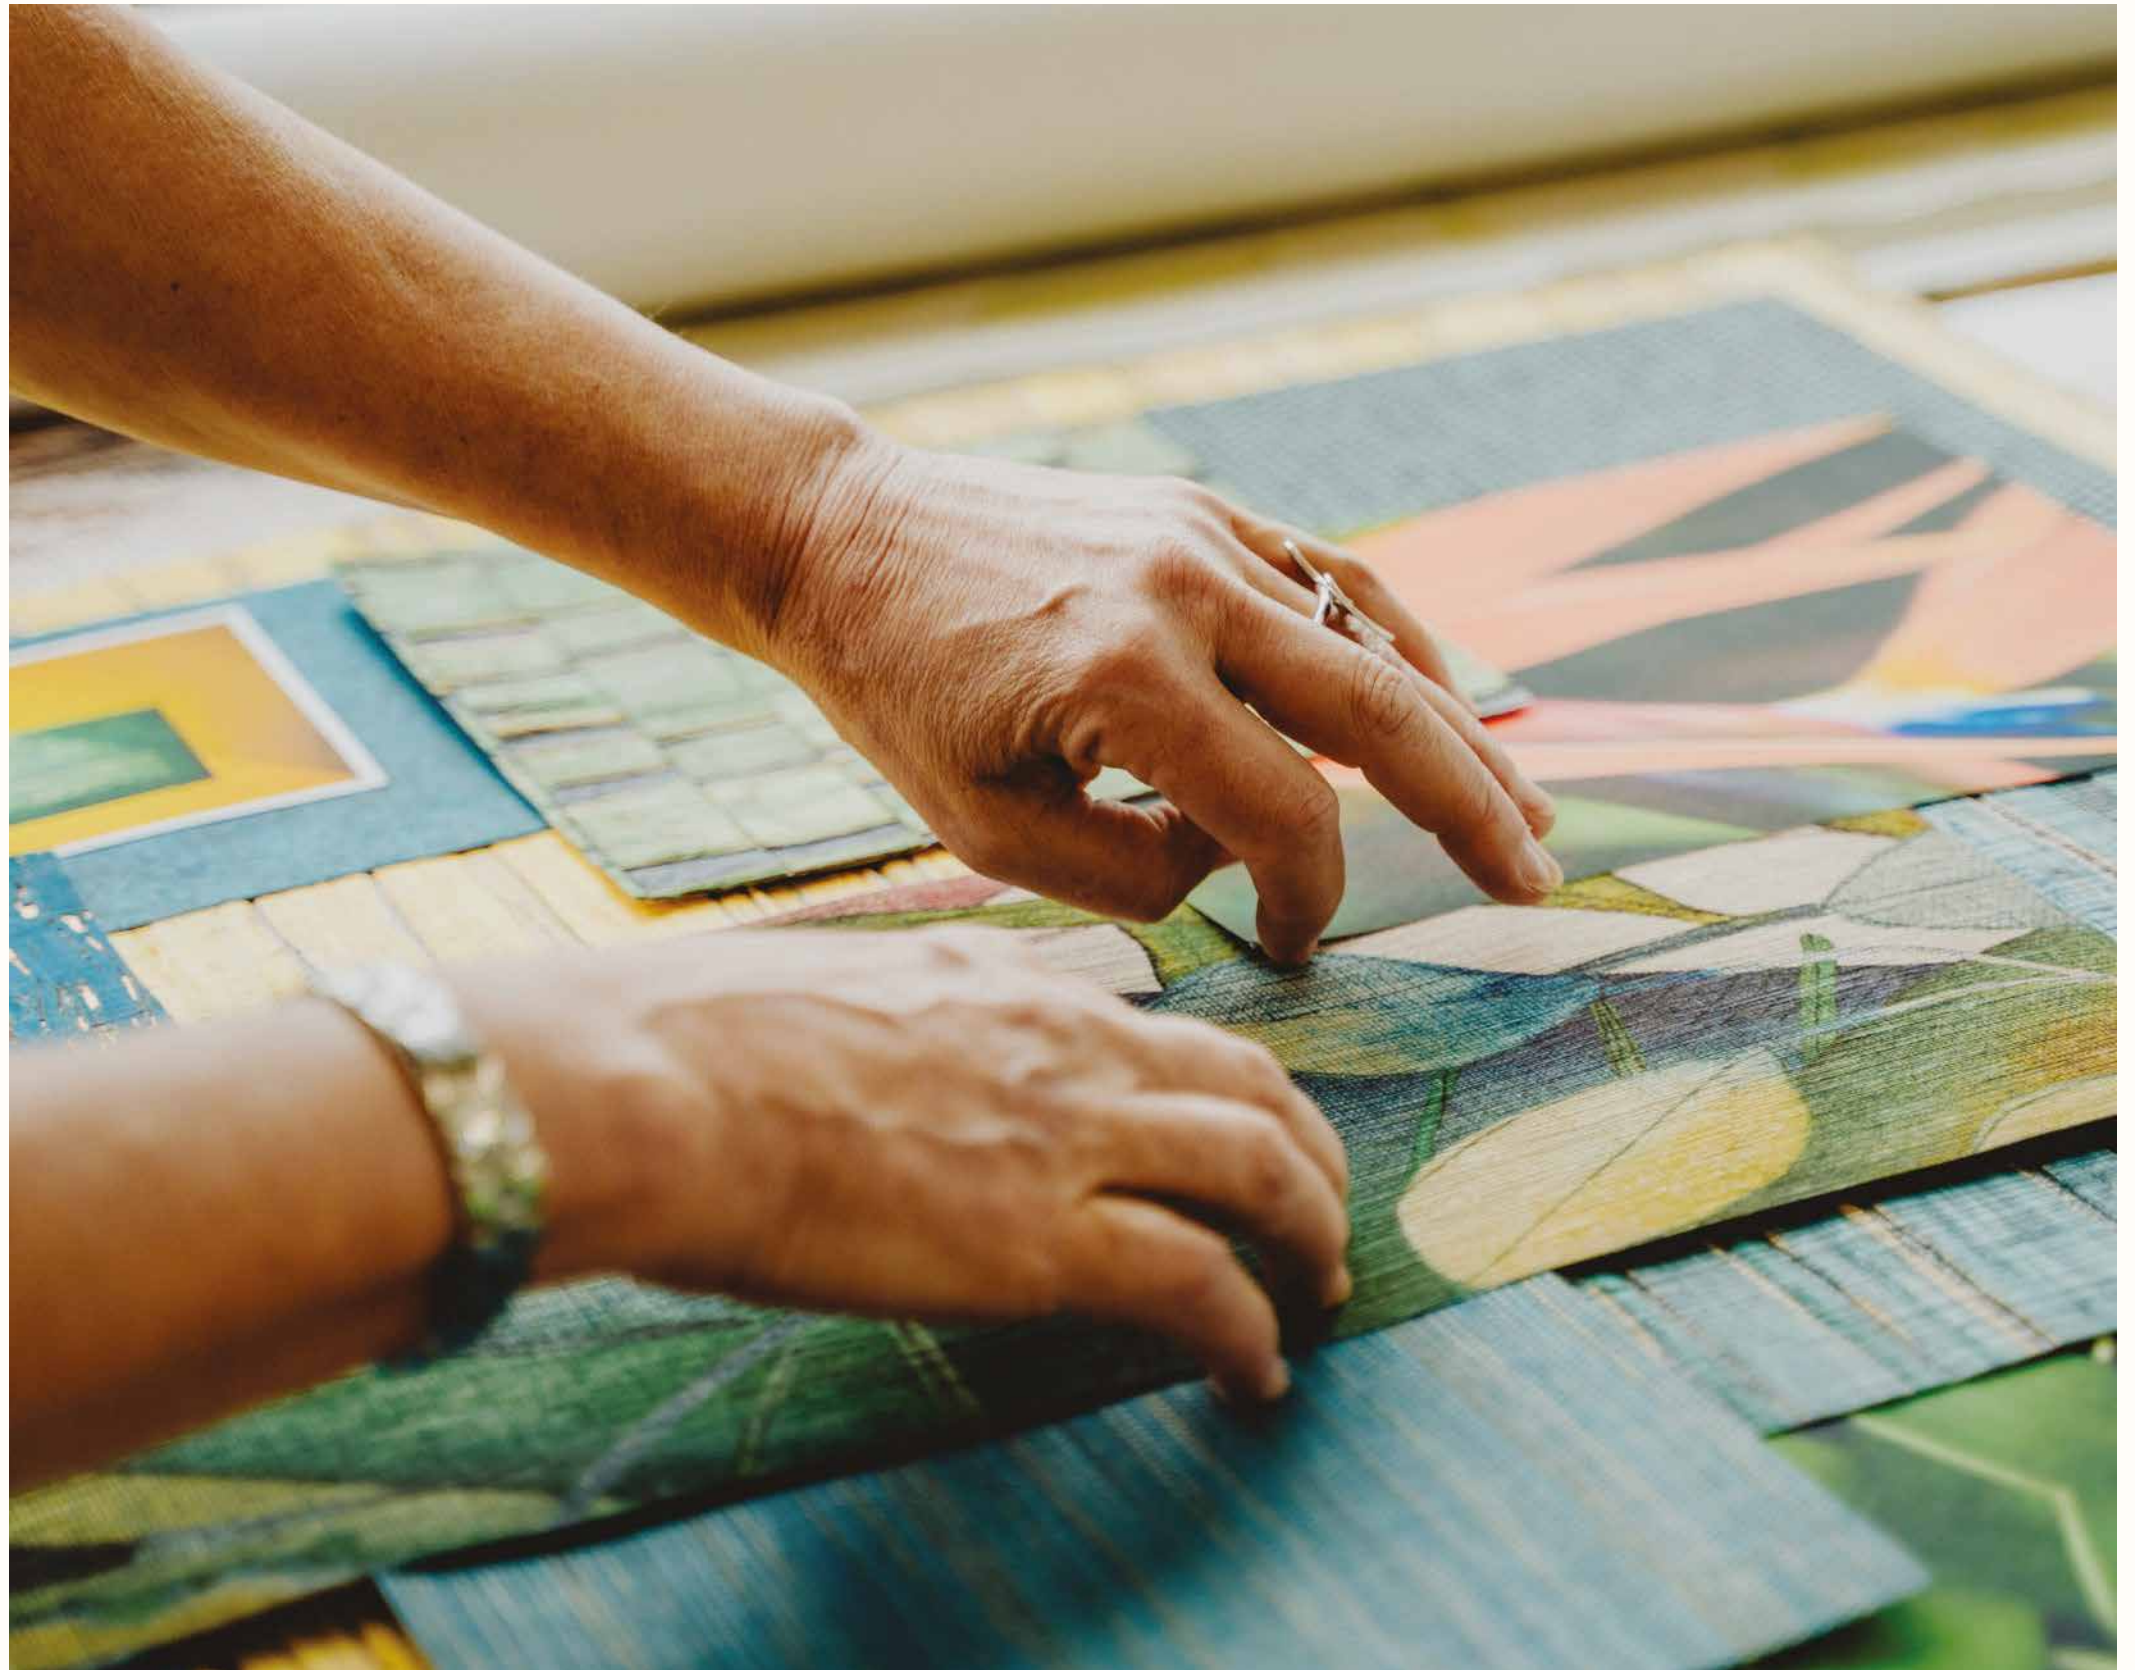

Reduced wastage

To decrease waste, every order is custom cut. No minimum or fixed increments.

Printed, woven or natural, each one of our creations is custom cut to bring poetry to your space.

Naturals

As an established designer and producer of luxury wallcoverings, we have a time-honoured affinity for natural products.

We work with highly specialised partners, each using their knowhow in a unique way. These craftsmen use a large variety of raw materials such as wood veneer, mineral stones, natural plant fibres, capiz shells and cork, to name but a few.

Dedicated to the finest artisan traditions, we transform pure materials into exceptional wallcoverings, from natural elements into works of art.

Textiles

A savoir-faire that requires mastery of the complete creative process, from the careful selection of fibres, the spinning and dyeing of yarns to the realisation of the final textile wallcovering, exploring a variety of textures and materials.

Silk, Belgian linen, wool and handspun yarns of Indian cotton are truly being celebrated as noble materials in our refined and lavish collections.

Textile wallcoverings seduce by their sophisticated simplicity and timeless elegance.

MANDARINA SILK, LS404

Prints

PRINT CHARMING, JOY51

THE TROPICS, BOP401

Our printed wallcoverings consist of a non-woven backing on which we print a design: exuberant tropical prints, geometric shapes, hand-painted patterns or printed plains.

Our prints are all made in-house in our Belgian mill. They can be used in residential as well as in contract projects, since they possess all the technical requirements: fire rating, washability, marine certification, etc.

HIGH PERFORMANCE

HIGH PERFORMANCE PATINA

Green up your walls

We bring you a wallcovering that meets essential technical standards while being eco-conscious. Combining performance with sustainability and modern aesthetics. Created for residential, commercial and hospitality interiors all over the world.
