teknodeSIGN

M A D E I N I T A L Y

TeknodeSIGN by **BM** is a company founded in 1988 as the natural prosecution and evolution of the original workshop.

It represents the answer to the different needs of a new commercial and industrial reality.

TeknodeSIGN by **BM** is rooted in history, in tradition, in the century-old experience of one of the oldest workshop of the Cantù area that has evolved through three generations of carpenters.

As a result, the new company, **TeknodeSIGN** by **BM**, represents the perfect synthesis of the new entrepreneurial spirit, know-how and design with the manual skill, construction experience and tradition of old.

All these qualities are the result of the work of several generations and of a common culture centered on woodworking.

All these new suggestions have grown on the common fertile ground of a passion for high-quality products.

teknodesign

MADE IN ITALY

TEKNODESIGN by BM la société a été fondée en 1988 comme un prolongement naturel de l'atelier père qui décide d'innover et de chercher une autre identité, d'affronter les réalités nouvelles et la construction commerciale.

La société TEKNODESIGN by BM a appelé directement à l'histoire de faire l'expérience d'âge la tradition ancienne de l'une des boutiques Canturina maintenant à sa troisième génération de menuisiers et présente dans les affaires clés plus appropriée à notre temps que la tradition que l'histoire de l'obtention de ces capacités de mélange de saveurs techniques, l'expérience de fabrication, artisan, design.

Qualités qui ne peuvent être certains d'improvisation, mais peut être acquise que par la richesse de la vie et la culture des bois.

Les nouvelles tendances du produit peuvent s'intégrer dans un tissu favorable des réponses appropriées et fondées sur la vocation innée pour la production de biens manufacturés de haute qualité.

Une situation commerciale jeune et en constante évolution en recherchant tout particulièrement envers ce fait plus sensible à la conception des produits.
