Francescano Natura Assisi

The brand Francescano Natura Assisi was born in 1971 with the intent of promoting the quality and authenticity of Italian gourmet products in Italy and in the world.

In 2009 the brand has been acquired by our company Buongiorno Italia srl, enhancement and promotion the quality of Italian products is so placed at the center of a careful strategy of development with the continuous addition of new innovative items, with original packaging and design, able to meet all the needs and tastes of consumers. The attention to the typicality was also supported by growing demand and attention of market on product quality, as well as the desire to enhance, improve and pass local traditions worldwide.

Over the last decade, the growth of demand of our liqueurs has been exponential and we introduced and expanded the already wide range of liqueurs and "limoncelli", tradition and the newest production co-exist in the multitude of items with refined and unusual flavors.

With a "hint of pride" we added to our spearhead the mark "I.G.P" of Limoncello Amalfi and Sorrento and we have recently launched, various exclusive miniature cream liqueurs and charming flasks. Our real novelty are the "Pharmacy bottles," with their original shape in an antique style ... that bring to mind "the past", these liqueurs are made with infusion of distilled flowers and natural extracts including Gentian, Licorice, Amaro, Amaretto, Coffee, Sambuca and the Ratafia .

The will and the ability to enhance traditional and local products is a primary and decisive factor for pur company.

*"Our mission is continue to grow by promoting
the authenticity of Italian excellence
all over the world"*
