VI edition

MUSEO STORICO ALFA ROMEO

WEDNESDAY 19 SEPTEMBER 2018

ore 13:00 Registration and Welcome Coffee

13:50 Keynote address – Aldo Rotta, director in charge of RPD

14:00 In search of the diamonds-Additive Manufacturing on the way to automotive serial production
Frank Beckmann, Division Manager Industrialization AM, Fraunhofer IAPT

14:20 Additive Manufacturing Engineering: Design, evaluation and control of metal components made with additive technologies
Alberto Faraboschi, Technical Consultant, MSC SOFTWARE
Tommaso Giaccio, Automation Technologies & Portable Systems, HEXAGON MANUFACTURING INTELLIGENCE

14:40 Proximity pays - how multiple lasers can work together on high-integrity parts
Enrico Maria Orsi, Additive Manufacturing Products Manager - Italy, RENISHAW

15:00 The use of Additive Manufacturing for Ansaldo Energia's next Generation of Gas Turbines
Massimiliano Maritano, R&D Project Manager AEN R&D PRG SSG, ANSALDO ENERGIA

15:20 3D metrology using the CT Scan technique
Riccardo Girelli, CEO, LABORMET DUE

15:40 coffee break networking

16:20 Accelerating Industrial Additive Manufacturing towards Productivity Leadership
Bart Leferink, Director Global Channel Sales, ADDITIVE INDUSTRIES

16:40 Design for additive manufacturing, supports' design to the production process
Sara Rinoldi, Application Engineer, PROTO LABS | SOUTHERN EUROPE REGION

17:00 Remember, man, you are dust and to dust you will return
Andrea Sandi, Fondatore, SINTAC

17:20 Stratasy's additive technologies to improve and make product development and production more efficient
Giuseppe Cilia, Sales Manager, STRATASYS EMEA

17:40 Development of high-performance aluminum alloys for applications in Aerospace and Automotive
Alessandro Rizzi, Process Engineering, BEAMIT

18:00 End of the first day

SEGRETERIA E ISCRIZIONI:

Andreana Ippolito - Eris Eventi

a.ippolito@eriseventi.com - Tel 02.3494367

ERISEVENTI.COM

THURSDAY 20 SEPTEMBER 2018

09:00 Registration

09:25 Keynote address – Aldo Rotta, director in charge of RPD

9:30 Innovative Methods of Design for Additive Manufacturing (DFAM) for the development of guide to machine tools
Luca Iuliano, Flaviana Calignano, Manuela Galati
POLITECNICO DI TORINO, Centro Interdipartimentale di Additive Manufacturing

09:50 Thinking outside the box: freeing the potential of Additive Manufacturing with new design techniques
Giulio Turinetti, Business Developer, ALTAIR ITALIA

10:10 No worries! Find your right application together with EOS!
Giancarlo Scianatico, Regional Manager, EOS ITALY

10:30 DMLM in BHGE: moving from R&D to qualification and production
Edoardo Gonfiotti, Additive Manufacturing Technical Leader, NUOVO PIGNONE TECNOLOGIE
BAKER HUGHES, A GE COMPANY

10:50 Nickel, Cobalt, Iron and other metals and alloys for Additive Manufacturing: processes, applications, challenges and trends.
Kennet Almkvist, President Customized Technologies, HÖGANÄS / H.C. STARCK STC

11:10 coffee break networking

11:40 How to make more money with SLM
Kamer Geyisi, Sales Manager Italy, Balkan States, Turkey, SLM SOLUTIONS

12:00 Motorsport-Design and Optimization of an upright for ALM
Frédéric Impellizzeri, Manager BU Automotive, POLY-SHAPE GROUP

12:20 Additive manufacturing in the smart factory
Guido Chiappa, Senior Director, RINA

12:40 Introducing two metal 3D printing systems for the full product life cycle – from prototyping to mass production.
Tuan Tranpham, VP of Global Sales & Service, DESKTOP METAL FOR ENERGY GROUP

13:00 Lunch networking

14:00 HP solutions for professional 3D printing: technology overview and best case studies
Davide Ferrulli, Sales Manager, HP 3D Printing Italy

14:20 Quality, critical aspects and certification of products realized with additive manufacturing technology (metals, powder bed fusion)
Giacomo Rigoni, Additive Manufacturing Quality Specialist, TEC EUROLAB

14:40 LMF Additive manufacturing for tooling, a case study
Marco Andreetta, Product Marketing Analyst, SISMA

15:00 ANSYS Simulation solution for Metal Additive Manufacturing Process
Abel Ramos Calvo, Application Engineer, ANSYS

15:20 coffee break networking

16:00 Identify additive parts... that have a positive ROI!
Robert Dean, Design Leader, GE ADDITIVE - ADDWORKS

16:20 The role of gas in Additive Manufacturing
Andrea Spicca, ALTEC Expert SW Europe Cluster, AIR LIQUIDE

16:40 Additive manufacturing in hydraulic applications
Valeria Tirelli, Ceo, AIDRO HYDRAULICS

16:55 Additive production of structural components for gas turbines
Paolo Gennaro, CEO, GF PRECAST ADDITIVE SA

17:10 End of the forum and visit to Museo Storico Alfa Romeo
