

Green Work S.r.l.

About us

Green Work is a contract company specialized in the construction sector, with over twenty years of experience in the sector. Thanks to its long presence in this field and an exclusive partnership with manufacturers at European level, the company stands out for its ability to offer turnkey solutions, which combine technical expertise, professionalism and attention to the specific needs of customers.

Our strength:

Consolidated experience: two decades of activity that guarantee reliability and quality.

- **Tailor-made solutions: customized projects to satisfy every request, from renovations to new construction interventions.**
- **Integrated approach: Complete management of the project, from planning to implementation, guaranteeing certain times and respect for the budget.**

Our services

Green Work stands out for its constant commitment to the creation of excellent works, for public works and for private homes. Thanks to many years of experience and a highly specialized internal team, we manage the entire construction chain, ensuring high quality standards and full customer satisfaction.

Integrated services in construction site management:

- **Measurement survey:** carried out with precision by our qualified staff, to ensure perfect adherence to the project specifications.
- **Construction site assistance:** continuous support during all phases of the work, with attention to detail and the specific needs of each order.
- **Direct installation:** installations carried out directly by our internal team, ensuring an impeccable and long-lasting result.

Why choose Green Work:

- **Complete internal management:** a single point of contact for all phases of the project, from planning to final delivery.
- **High specialization:** team composed of professionals with expertise in every aspect of the construction sector.
- **Excellence and guaranteed quality:** Each project is taken care of down to the smallest details to achieve the highest level results.
