Good to Know

Our PIZZA is not a real pizza but a salty cake, a Dutch. It is really special and nourishing. We make it with much Gouda cheese (a Dutch kind of fontina cheese) and tomato sauce, baking it for half an hour at least. We use to serve it cut in portions: the price refers to a single portion (the fourth part of a whole pizza).

Our FOCACCINE are really special and nourishing too. We use to take the crumb out and fill them with selected, top quality ingredients. They have to be tasted warm and crunchy, after a final toasting in the oven. We prepare them in a single portion only, the price refers to the eight part of a whole focaccia.

We use only high quality cold meats and salami. The "prosciutto crudo" is exclusively prosciutto di Parma (Parma ham), aged 18 months. If you find this ◯ mark next to peas or artichokes, it means that they are always frozen products. If you find this ◯ mark next to some ingredients such as arselle, clams, shrimps, mushrooms, it means that sometimes they may be frozen products. Anchovys, tuna fish, maitais corn, pineapple, and sometimes, vegetables and mushrooms, are similar products.

In fillings, where provided, we used vegetable stock cube broth or tripe product, meat-free and low-glutamate content. NOT VEGAN. It may contain various allergens. In the preparation of clams, mushrooms, peas, artichokes, zucchini, and wherever required, garlic is used not crushed and then removed.

PIZZA DOUGH CONTAINS BREWER'S LEAVEN, MILK AND STRUTTO FAT FOCACCINA DOUGH CONTAINS BREWER'S LEAVEN, MILK AND EVO OIL PIZZA and focaccia are in baking pan, with peanut oil and EVO extravirgin olive oil
