

COMPONENTS FOR TILING WALL COLLARS

Nexiot Replast
Connection Trust

DESCRIPTION

3-layers waterproofing accessories with polyethylene/flexible polymer internal core bonded on both sides with a textile. The flexible polymer is selected for its flexibility, durability, and resistance to weathering. These collars are engineered with wide flanges to enable secure bonding with membranes or concrete, ensuring a strong and long-lasting connection.

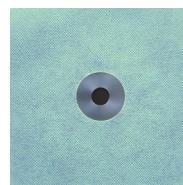

APPLICATION

It is a construction component designed to ensure a watertight seal around pipes or conduits passing through walls, typically concrete or membrane coated.

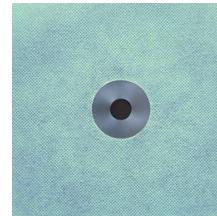

TECHNICAL DATA SHEET

Material composition

Textile:	modified PP non-woven	
Internal core:	flexible polymer	
Colour	Light blue (other colours upon request)	
Resistance to temperature (min./max.)	-30°C / + 90°C	
Chemical resistance in the installed conditions	EN 1847 / EN 527-3	Resistant to alkali and acids

NEXI WC U 120-120 7/25

NEXI WC U 150-150 14/40 Wall Collar

DIMENSIONS

Side lenght	120/120 mm	150/150 mm	±3
Internal hole diameter	7 mm	14 mm	±1
External hole diameter	25 mm	40 mm	±1
Overall membrane thickness	EN 1849-2	0,6 mm	0,6 mm
			±0,15

Storage: cool and dry, protect against sunlight, use within 24 months after receipt.

Attention: due to technical reasons the colour of the material or the printing may vary slightly from batch to batch.

The above technical data represent average values. The technical information and application instructions are based on our current knowledge and expertise. However, it is the responsibility of each user to conduct trials with the original substrates in order to evaluate the suitability of our goods for the intended purpose, taking into consideration all application related parameters. If you have any further questions, please contact us.
