

PASTA ITALY®

TRADIZIONE E GUSTO ITALIANO

"Pasta Italy: All the warmth of a quick first course, with the freedom to store it out of the fridge."

www.pastaitaly.it

The taste of tradition, with the speed of the future.

Chef quality, wherever hunger takes you

"Our Ambient ready meals are the ultimate solution for those looking for maximum taste in maximum freedom. Thanks to storage out of the fridge, they are the ideal companion on the road with you or for your camping holiday. Their superior quality also makes them suitable for restaurants and businesses that want to offer an excellent first course in record time. It only takes 3 minutes: heat them in the microwave, put them in the oven or sauté them in a pan to rediscover the pleasure of the table every day, wherever you are."

Passion, nature and authentic Mediterranean taste

"Imagine the authentic flavor of fresh pasta, always at hand, wherever you are. Our Ambient Fresh Cooked Pasta is the perfect base for all your culinary creations. Keep it out of the fridge, choose your favorite sauce – a simple butter and sage, a robust ragout, or a lively pesto – and regenerate the pasta in the pan, in the microwave, or directly in hot water for an impeccable and delicious result every time."

LA PASTA PRECOTTA AMBIENT, PRONTA IN 90 SECONDI

Our 5 Pillars

Authentic taste Our recipes honor the tradition of "al dente" pasta handed down from our grandparents. We use only the highest quality raw materials to bring the true flavor of Italian cuisine to the table.

Maximum Speed Designed for those who have little time but do not want to give up quality. It's ready to enjoy in just 90 seconds – just pour in the dressing and heat in a pan or microwave.

Natural Well-being We follow the philosophy of the Mediterranean diet. Our product is free of preservatives and additives, ensuring a genuine, safe and nutritious meal.

Real Sustainability We are good for the planet and your wallet. By eliminating boiling, we reduce emissions and energy consumption. Storing outside the fridge reduces the logistical impact, while single portions actively combat food waste.

360° innovation

Production: State-of-the-art processes for a safe product at room temperature.

Logistics: Zero cold chain for months, facilitating storage and transport.

Market: The ideal solution for the new frontiers of Food Delivery and food e-commerce.

Pour the sauce, heat the product in the microwave or in a pan, and after only 90 seconds it is ready to enjoy!

The Revolution of First Courses: Gourmet Quality in 90 Seconds

PASTA ITALY, in collaboration with the innovative EuroChef technology (EuroPasta line), presents the definitive solution for fast food that does not want to give up Italian excellence. Why choose **PASTA ITALY** for your restaurant?

- Record Speed:** Thanks to the combined system, the platter is ready in less than 90 seconds. Ideal for managing work peaks without making customers wait.
 - Zero Waste and Easy Storage:** The product can be stored out of the refrigerator (ambient) with a long shelf life (12 months). No more problems with space in the fridge.
 - Zero technical constraints:** The EuroChef pasta cooker does not require an extractor hood or water connection. You can install it anywhere, even in rooms without a chimney.
 - Superior Quality:** It is not "fast food", it is real Italian pasta with an al dente result and high quality condiments.
- Our Line Includes:** Tortellini with meat, Ravioli with ricotta and spinach, Tagliatelle Spaghetti, Short pasta various shapes, Rice and a wide range of sauces all in single portions also **Gluten Free**

pronto quando vuoi tu

 **Qualità Ambient:** Tutta la freshness della tradizione, senza il bico di catena del freddo.

 **Ready in 2 Minute:** Tecnologia e sapore servio di tempo moderne. 100% Grano Italiano per l'esperienza gourmet quotidiana.

PASTA ITALY
TRADIZIONE E GUSTO ITALIANO

Pasta Italy: The Smart Evolution of Made in Italy

Pasta Italy is positioned as a food innovation laboratory that reinterprets tradition through scientific research. The company has developed cutting-edge technology that allows you to enjoy the quality of Italian cuisine with maximum modern practicality.

The Pillars of Innovation

Stabilization Technology: An exclusive process that allows dishes to be stored at room temperature (without cold chain) for a long time.

Quality Without Compromise: Products ready in 90 seconds, totally free of preservatives and additives, capable of maintaining the "al dente" consistency and the original organoleptic properties.

Sustainability and Logistics: Reduction of energy and logistics costs, making the product perfect for new sales channels such as E-commerce and Food Delivery.

In summary: Pasta Italy transforms the Mediterranean Diet into a smart and sustainable solution, eliminating the barriers of traditional preservation without sacrificing excellence in taste.
