SINGOLI

per semplificarvi
la vita

Merati con i Singoli propone un programma semplice per soddisfare le più elementari realizzazioni in alternativa al tradizionale lavabo. Tutte le soluzioni prevedono il nuovo piano con lavabo integrato, modello ZEN, realizzato in Whitebrill. Le proposte classificate per profondità 40,5 cm e 51,5 cm, sono composte da quattro dimensioni in larghezza, 70-90-105-120 cm, che con le varianti dei componenti propone numerose soluzioni per soddisfare al meglio le esigenze della clientela. Se le dimensioni sono contenute l'ampia gamma delle finiture permette di soddisfare le più sofisticate esigenze dell'utente. Le nuove finiture Tecno, nove texture, laccature opache e lucide realizzabili nei 240 colori della cartella Synthesis 2 sicuramente soddisferanno la tua fantasia. Esigenze dimensionali più ampie possono essere soddisfatte con la proposta di componenti a completamento. Da punto di vista formale i Singoli ti permettono di ottenere composizioni belle caratterizzate dalle facciate in luce e dalla scelta di due eleganti maniglie.

Merati with Singoli offers a simple program to meet the most basic achievements as an alternative to traditional sink. All solutions include the new plan with integrated sink, ZEN, made Whitebrill. Rated proposals for depth 40.5 cm and 51.5 cm, are composed of four dimensions in width, 70-90-105-120 cm, with which variants of components it offers many solutions to best meet customer needs. If the dimensions are given the wide range of finishes can satisfy the most sophisticated needs. The new finishes Tecno, nine textures, matt or glossy lacquers achievable in the 240 available colors Synthesis 2 will certainly satisfy your imagination. Dimensional requirements can be met with larger components to complete the proposal. From formal point of view the Individual allow you to obtain compositions characterized by beautiful facades and light by the choice of two elegant handles.

La Storia

MERATI

Dagli anni '50 il marchio Merati è presente nel settore dell'arredamento per la casa.

All'inizio degli anni '80, con l'evolversi dei costumi e delle abitudini, legati all'ambiente bagno, l'azienda si specializza nella produzione di sistemi d'arredo rivolti all'area lavabo.

Con l'obiettivo di fondere contenuti tecnologici e formali nei propri progetti, Merati si avvale della collaborazione di designers esterni indispensabili per affrontare i rapidi cambiamenti del mercato e dei gusti.

L'introduzione di materiali nuovi, dimostra come la rigorosa e continua attività di ricerca rappresenti per l'azienda un fattore determinante nello sviluppo dei propri prodotti. Grazie a questa filosofia progettuale, Merati è riuscita, durante tutti questi anni, a reinterpretare il bagno in maniera sempre innovativa rispondendo ai veloci cambiamenti dei gusti e dei vissuti di questo importante ambiente domestico. A cavallo tra gli anni '80 e '90 prodotti quali Spazio e Elettra (by Castiglia & Associati), 2001 (by T.Colzani), Acqua (by C.Bartoli) e successivamente Aria (by M.Thun), hanno letteralmente cambiato l'approccio progettuale e di fruizione dell'area bagno posizionando Merati tra le aziende leader del settore.

Since the '50s, the Merati brand has been active in the sector of home decoration. In the early '80s, with the changes in consumer tastes and habits with respect to the bathroom space, the company began specializing in the production of systems designed for the wash basin area.

With the goal of combining technology and style in its design Merati collaborates with independent designers, certain that design and quality are absolutely indispensable elements for success in a rapidly changing market where tastes change year after year.

The introduction of new materials illustrates how rigorous and continual research is a key factor for the company in the development of its products.

Thanks to this future-oriented design orientation, Merati has, over the years, successfully reinterpreted the bathroom space in a consistently innovative manner, reacting to the swift changes in tastes and demands centering on this important domestic area. In the late '80s and early '90s products such as Spazio and Elettra (by Castiglia & Associati), 2001 (by T.Colzani), Acqua (by C.Bartoli) and later, Aria (by M. Thun), literally changed the design approach, the product type and the uses of the bathroom space, firmly establishing Merati as one of the leading companies in the sector.
