

THE STORY

The brand was created to celebrate the city that made the history of Italian luxury footwear, Vigevano, in fact, a land of craftsmen, master shoemakers, as well as the Italian capital of the production of the Arab sandal made in Italy, made in Vigevano.

Also in this city, you can experience art with one of the most beautiful Italian squares, protected by the Sforza castle where the Bramante tower that watches over the city stands out. That's why, we decided to testify these Italian excellences in our logo:

1: Bramante: in honor of the architect, 2: the tower symbol of art and culture and 3 made in Vigevano for its history.
