

The Öhlins kit allows lower ride-height than the height shown in the picture

Issued 31/08/2021

ROAD & TRACK SEAT LEON

PRODUCT NEWS

2020- SEAT LEON

PART NO: VWS MU21 • **CHASSIS CODE:** KL1/KL8

This is the latest step in the Öhlins Racing automotive philosophy – Road & Track by Öhlins.

A more than 30 year long tradition of high-end racing commitments and state-of-the-art solutions within advanced suspension technology is now available for street cars all over the world. The focus has been clear from the very beginning – superior road handling without sacrificing comfort in your day-to-day transports. The time of compromises is over.

We have also added a clever light-weight design with a majority of the parts in aluminium and on top of that all shocks have suffered through vast corrosion tests according to ISO 9227. The end result is a 2-year limited warranty on all of our products - worldwide.

GENERAL FEATURES

- > DFV (Dual Flow Valve)
- > Rebuildable
- > Corrosion salt spray tested (ISO 9227)
- > 2 year limited warranty
- > Springs ordered separately
- > Weight reduction compared to original suspension: -10kg

FRONT FEATURES

- > McPherson strut (55 mm width)
- > Single bleed adjuster
- > Height adjustable (approx. 15 mm lower than standard)
- > Coil springs (70 N/mm)
- > Use with original top mounts
