LINE

COSMETIC

T-LIMONENE

Active principles:

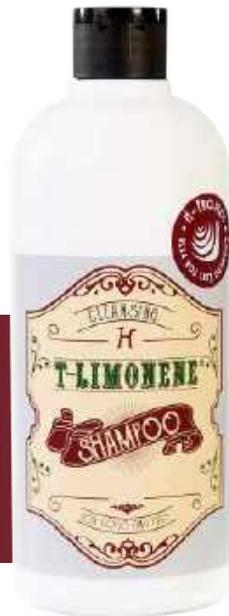

- LIMONENE
- SULFUR

Professional shampoo for dogs and cats T-Limonene, is ideal in very shabby coats or in the presence of soap-sensitive skin or with anomalies such as dandruff, eczema and excess sebum. Its sulfur-based thermal water composition creates a protective barrier to protect the mantle, eliminating itching and unpleasant odors for a long time. Due to its delicacy it is particularly suitable for puppies and elderly dogs.

HOW TO USE:

dilute the product with 9 parts of water (10:1) and proceed with a first wash on the dry coat. In this phase it is advisable to use a sponge and repeat the operation if necessary. Rinse thoroughly and proceed with drying.

Bottle 500ml - Tank 5000ml

REVITALISER

Active principles:

- TEA TREE OIL
- SWEET ORANGE ESSENTIAL OIL

Professional shampoo for dogs and cats Revitaliser designed to restore an immediate keratin balance on damaged coat and irritated skin. It protects the structure of the coat from any environmental or chemical aggression. Contains selected surfactants of natural origin to cleanse with extreme delicacy and maximum respect. It has been enhanced with Tea Tree Oil to quickly rebalance coat and skin deficiencies in very worn and neglected coats. It also contains sweet orange essential oil to invigorate and shine all types of coats. It facilitates brushing and keeps the coat in excellent condition for a long time. For all breeds, especially dogs and cats with very dirty and neglected coat.

HOW TO USE:

dilute the product with 9 parts of water (10:1). Distribute evenly on dry coat massaging thoroughly. In this phase is advisable to use a net sponge. Rinse and repeat the operation if necessary, keeping the product in place for a few minutes and taking care to get it to the root.

Bottle 500ml - Tank 5000ml

WHITE BRIGHT

Active principles:

- LIMONENE
- SULFUR

Professional shampoo for dogs and cats White Bright cleans thoroughly with a sebum-regulating process. Ideal as a colour reviver for white, black, tawny and coloured coats in general. It inhibits the yellow colour from the coat thanks to a very delicate optical brightening agent, enhancing the natural colour of the coat.

It does not contain hydrogen peroxide or harmful chemical elements. Its formulation has been integrated with selected surfactants of natural origin to cleanse the coat and skin of the animal with care and delicacy. White Bright shampoo has been enhanced limonene, thermal water with sulphur to quickly integrate the coat and skin deficiencies during the bathing. Regenerates the coat and gives natural volume. Facilitates brushing and coat maintenance.

HOW TO USE:

dilute the product with 9 parts of water (10:1). Distribute evenly on dry coat massaging thoroughly. In this phase it is advisable to use a net sponge. Rinse and repeat the operation if necessary, keeping the product in place for a few minutes and taking care to get it to the root. For the very yellow parts, we recommended using it pure. Excellent also for frequent bath.

Bottle 500ml - Tank 5000ml

DETANGLES

Active principles:

- SILK PROTEINS
- LICHENES

Professional conditioner for dogs and cats Detangles restructures coats of all breeds and gives volume. It guarantees results on the most fragile, debilitated and poorly groomed coat. Ideal formulation to fight knots and support the coat in long, woolly weaves. Repairs damage caused by chemical and environmental agents. After each use, the coat is soft, shiny and easy to comb, with no split ends. Combats unpleasant odours.

HOW TO USE:

dilute the product with 9 parts of water (10:1) creating a soft emulsion and distribute on the coat washed and moist. Massage and leave to act for a few minutes. Rinse thoroughly. The dose of the emulsion to be used should be calculated and increased according to the conditions of the coats to be treated.

Vase 1000ml

LINE BASED ON ENZYMATIC SNAIL SLIME

We use non-invasive snail drool for the snail through procedures certified by the Ministry of Health.

THE SNAIL SLIME IS LOADED WITH POSITIVE IONS.

The snails leave the secretion through ozone and oxygen therapy remaining in constant fermentation thanks to the presence of live enzymes.

THE PURIFYING ACTION

The peptides and glycolic acid contained in the snail slime determine the purifying action and prevent the accumulation of impurities or, if present, successfully remove them.

THE EXTRACTED SNAIL SLIME CONTAINS:

Allantoin, Glycolic Acid, Elastin, Lactic Acid Exfoliant, Mucopolysaccharides, Vitamins (A, C, B, E, B1, B6), Free Amino Acids, Peptides, Proteins, Enzymes.

- moisturizing action
- high cleaning power
- regenerating and restructuring power
- effective detergent
- sebum-regulator
- antioxidant
- exfoliating and purifying

The specific product dedicated to grooming, is based on solutions created to improve the elasticity, hydration and cleansing of the coat.

HOW TO USE:

dilute the product with 15 parts of water (16:1) and proceed with a first wash on dry coat. In this phase is advisable to use a net sponge and repeat the operation if necessary. Rinse thoroughly and proceed with drying.

Bottle 250ml - Bottle 500ml - Tank 5000ml

ELIXIR

Active principles:

- SNAIL SLIME ENZYME
- ALLANTOIN

Professional conditioner Elixir is fortifying and restructuring balm based on enzymatic snail slime for dogs and cats with a very high hydrating action. It gives natural shine and vitality to the coat. Elixir Conditioner used after shampooing and with damp coat also helps to neutralize unpleasant odours and is essential in decongesting inflamed skin both after stripping and in the presence of skin problems of various kinds. Elixir Conditioner quickly restructures the coats of all breeds. It guarantees results on the most fragile, debilitated and poorly groomed coats. With its sebum-regulating characteristic, it repairs damage caused by chemical and environmental agents and excess sebum. After each use, the coat is soft, shiny and easy to comb. Very useful in contrasting the problem of the tail of the stallion in cats. It effectively fights unpleasant odours.

HOW TO USE:

use on washed and damp coat. Dilute the product with 9 parts of water (10:1) creating a soft emulsion. Distribute the conditioner over the entire coat, massage, leave to act for a few minutes then rinse thoroughly. The dose of the emulsion to be used must be calculated and modified according to the conditions of the coats to be treated.

CONDITIONER

MEDEA

Detangling

Active principles:

- ENZYMATIC SNAIL SLIME
- KERATIN
- GLYCOLIC ACID

Professional shampoo for dogs and cats with a highly concentrated composition to effectively cleanse, restructure and detangle hair that tends to form knots. Medea shampoo for dogs and cats is ideal for restoring immediate keratin balance to damaged coat and irritated skin. It protects the structure of the coat from environmental or chemical aggressions. Contains selected surfactants of natural origin to cleanse with extreme delicacy and maximum respect. Enriched with keratin to restructure damaged hair and with a specific component that favours the combing and untangling of the coat. Designed for all those subjects who need a short stay in the bath. Medea Detangling Shampoo ensures a quick grooming of cats, elderly or debilitated dogs and in particular it is addressed to all pets not used to grooming. In addition to its excellent cleansing power, it has a purifying action thanks to the glycolic acid contained in the Snail Slime.

HOW TO USE:

Dilution varies according to the condition of the hair from 1 to 9, to 1 to 15. Distribute evenly on dry coat massaging thoroughly, rinse and repeat the operation until obtaining a soft nourishing cream. Leave on for a few minutes, taking care to get the product right down to the root, proceed with brushing. Rinse thoroughly.

Bottle 500ml - Tank 5000ml

FREYA

Active Principles:

ENZYMATIC SNAIL SLIME

Freya professional shampoo with snail slime, specially created for cat grooming. It allows you to work with the most delicate coats, starting with white coats, achieving incredible results. It acts thanks to the acidity of its pH, managing to remove all oxide and preventing yellowing and maintaining the texture of the coat. Freya also achieves amazing results in the most common cat problems such as 'stallion tail' in the male. Specially designed without any fragrance or scent so as not to alter the delicate olfactory system.

SHAMPOO

METHOD OF USE

Dilute Freya shampoo with 15 parts water (1:16). Apply to dry hair massaging in thoroughly. Leave on for about 3 minutes then rinse thoroughly and repeat if necessary. Use pure on tail and muzzle if very greasy.

Bottle 250ml Bottle 500ml Tank 5000ml

HERMY OIL

Active principles:

- LIMONENE
- VEGETAL OIL
- ORANGE EXTRACT

HERMY OIL is more than just a shampoo, it is something magical. It is a restructuring and cleansing bath with an oil-like structure that removes dirt with an innovative gentle and natural action.

HERMY OIL shampoo for dogs and cats acts with extreme care to restore the skin from abnormalities that can attack and damage it. It restores the normal production of sebum and is ideal to consolidate the various irritative phenomena of the dermis with an emollient and soothing activity. Recommended for dogs and cats sensitive to soaps with dermatological problems such as: dry and dehydrated skin, flaking, oily skin with seborrheic dermatitis, smelly skin, eczema, dandruff, redness, itching. Ideal for frequent bathing and for all breeds of dogs and cats. Adjuvant in the prevention of grease. Maintains the physiological hydrolipidic balance and soothes the itching sensation. Strengthens and protects the keratin structure.

HOW TO USE:

Sprinkle the pure product on the dry hair of the dog or cat and massage thoroughly taking care to reach the skin and the base of the hair. Rub for a few minutes and rinse. Suitable for use in the whirlpool bath.

Bottle 500ml

MORGANA

Conditioner Spray

Morgana professional spray conditioner for dogs and cats, with an ideal formulation to combat knots.

Morgana with an immediate, very rich and cushiony magic touch. Nourishing, slightly glossy, velvety and persistent after feel. Repairs damage caused by chemical and environmental agents. Acts as detangler before the cleansing treatment and facilitates shedding thanks to its highly softening and restructuring elements. Prepares the coat for bathing, structures the fine, dry and brittle coat without greasing it, leaving a pleasant scent. Excellent antistatic and conditioner.

HOW TO USE:

spray the product directly on to the wet suit, on the knot or if desired on each coat to be washed. Leave to act for a few moments, ensuring perfect action in the desired areas.

Bottle 250ml

MERLINO

Texturizing Spray

DIONISIO

Ear Cleaner

Dionisio ear cleaner for dogs and cats designed for cleaning the ear canal; concentrate of pure oils, enriched with orange and lemon with purifying and refreshing properties. Its formulation required research and experimentation as the area of application is very delicate. Contains vegetable oils for a complete sanitizing effect. It cleanses, refreshes and relieves any annoying anomalies of the ear canal. Facilitates the elimination of excess earwax. It keeps the pavilion in optimal conditions for a long time and protects it from attacks by external agents, to the benefit of the animal's health.

HOW TO USE:

Moisten a gauze with the product and gently and thoroughly clean the pavilion and the ear canal; consequently remove everything with a gauze moistened with water.

Bottle 250ml

HYGEA

Active Principles:

PANTENOL
ALOA EXTRACT

Hygea dry shampoo cleans dog and cat hair, without the need for water, with a strong cleansing action. It gives volume, shine and nourishment to the coat, absorbs excess hair and leaves a pleasant scent. Ideal for stressed and brittle coats. Its composition with Panthenol and Aloe Vera Extract creates a moisturising and protective barrier not only on the coat but also on the skin.

METHOD OF USE

Spray a discreet quantity of foam, adapted to the animal's size, on the coat. Carefully spread the foam with both hands so as to cover the entire coat or just the spot to be cleaned. Leave on for 3 to 5 minutes. Brush or use a cloth and massage until dry.

Bottle 150ml

CHLOÈ

Eye Cleanser

Active Principles:

CAMOMILE EXTRACT

NATURAL-BASED MILD SURFACTANTS

A periocular lotion with a very high concentration of plant extracts that, thanks to its composition, can be used in the areas around the eye. Recommended for all dog and cat breeds. It is a natural cleanser specially designed to cleanse the eye area and soften the reddish haloes of the tear ducts. It acts very gently thanks to the calming and soothing action of the plant extracts and the surfactant compound with a strong softening action. Regular use of Chloè relieves tearing, sanitises the eye contour and reduces tearing.

Caution: the product is not an eyewash.

METHOD OF USE

Cleanse the eye area with Chloè using gauze or a cotton pad, repeat the operation daily for perfect hygiene and a better appearance.

Bottle 100ml - Bottle 250ml

STARDUST

Impalpable and micronized powder specially created for professional use for stripping technique. It allows to ease the coat with ease thanks to its attacking characteristic. Its special composition allows its use for all stripping operations that affect the most difficult areas like ears, cheeks and back of the dog.

HOW TO USE:

apply the product in the desired zones, carefully massaging to facilitate grip. Proceed to remove with index and thumb or by helping with a stripping knife.
