WHITE WINES

Žlahtina

VRBNIK, ISLAND OF KRK

As research and studies show, the origin of the Vrbnik Žlahtina will remain a mystery. The world's wine grape database has DNA information on almost all grape varieties. The Vrbnik Žlahtina was analyzed, but its DNA does not match any other variety in the world. The adjective žlahtno derives from the old Slavonic word meaning "noble", making this indigenous, singular and unique variety a noblesse from Vrbnik that developed its good qualities in the Vrbnik field.

Istarska malvazija

ISTRIA

The exact place of its origin remains unclear, but Istrian Malvasia got its name from the largest peninsula in Croatia. Grapes produce medium strong and strong wines with its unique aroma – reminiscent of the smell of acacia flowers, linden and chamomile, with a Mediterranean bouquet... Malvasia is produced in different ways, some are suggested for fast consumption, but some can mature for several years...

Debit

NORTHERN DALMATIA

Debit is nowadays considered to be an indigenous white variety from the region of North Dalmatia. Debit wines are well-balanced and palatable, provide a great basis for making sparkling wines. The wines are mainly dry and light, with mild acidity, and the variety also offers a great potential for producing dessert wines.

Pošip

CENTRAL AND SOUTHERN DALMATIA

Pošip is indigenous white grape variety from the island of Korčula. It thrives on sandy soils, protected from wind. It gives large clusters that produce a high-quality, delicious wine with high acidity levels, and makes great wines for storing and ageing. The golden yellow wine is dry, offering a strong aroma of dried apricots and figs.

Malvasija dubrovačka

SOUTHERN DALMATIA

It used to be the wine of the Republic of Ragusa, protected by the Grand Council. One provision from 1424 states that: "The one in possession of Malvasija, with the permission from the Ragusan Council, can sell it at any desired price". It was even used in medicinal purposes. It gives powerful white wines.

Cabernet Sauvignon

VRBNIK, ISLAND OF KRK

Cabernet Sauvignon, a natural cross between Cabernet Franc × Sauvignon Blanc, is a red wine variety that originated in Bordeaux, France, but is successfully grown worldwide. The wine from the Cabernet Sauvignon grape is fruity, rough, and tannic with a strong “nose”. As it matures in wooden barrels for between 15 and 18 months, it increasingly reveals the fine aromas of oak barrels and blackcurrant aromas.

Babić

CENTRAL DALMATIA

An indigenous Dalmatian sort from the vineyards of Primošten, it grows from barren soil framed in dry-stone. Vineyards are built slowly in these locations, clearing stone from the soil. No wine region in the world knows this kind of hard work and position. Babić is cultivated with care, its yield is small and of high quality. The wine is alcoholically strong with a dark ruby color, rounded and slightly tart with a lovely varietal aroma.

SPARKLING WINES

Gospoja

VRBNIK, ISLAND OF KRK

It is a quality sparkling wine made from Žlahtina grape, which sparkles like a glowy pearl necklace among the products of Gospoja AC, foaming like the sea at the bottom of the Vrbnik cliffs, combining the uniqueness of Žlahtina and the experience of the producers into a celebration. It is made by using a traditional method in cooperation with an Austrian partner Sektkellerei Gebrüder Szigeti GmbH. It continues, quietly and sotto voce, the ballad of sparkling wines that the Benedictine Don Perignon (1638-1715) began long ago, only this time singing... "Vrbniče nad morem..." ("Vrbnik over the sea...").

Valomet from the sea

VRBNIK, ISLAND OF KRK

A unique production method: Bottles with sparkling wine are laid down in the sea, about a mile away from the coast of Vrbnik, at the depth around 30 meters. There is a constant temperature of 12 degrees Celsius at this depth, favorable for the fermentation of sparkling wines, with additionally benefits for the quality such as half-light, peace, quietness...

CHAMPAGNE

Moët & Chandon Impérial

FRANCE

Moët & Chandon is the world's biggest and most famous producer of champagne. The history of this globally recognized brand dates to 1743, when a French winemaker, Claude Moët founded the company, which was at the time called Moët et Cie (Moët & co.). This house's champagnes quickly gained favor among the political elite at the time and were enjoyed by many world rulers. One of the biggest admirers of Moët's champagnes was the French emperor Napoleon, who often enjoyed glamorous events at Moët's estate. In his honor, the star of the house and the highest selling champagne bears the name Brut Impérial.

DESSERT WINES

Misno vino Gospoja

VRBNIK, ISLAND OF KRK

A special product obtained by a combination of fermentation of concentrated grape must from žlahtina and new technologies. It is a semidry, dessert wine, the color of old gold, with moderate sweetness. Throughout the centuries, in Vrbnik, the city of priests and Levites, the best wine that the people gave as an offering to the Glory of God was raised to the presentation of God. It was precisely this pious custom that was not an easy task in the creation of mass wine.

| PREMIUM QUALITY DESSERT WINE, 14,5 % ABV | | |

Muscat

CROATIAN COAST, ISTRIA

This variety also comes under the names moscato giallo, moscat, moscatel, moscato siro and others. It belongs to the large "family" of muscat. Due to its resistance, it can stay on the vine longer, accumulate more sugar, so this "sun collector" is a dessert wine with a pronounced muscat flavor. The aroma and fullness of this wine are a perfect choice for drinking on festive occasions. In 2021, the European Commission (EC) announced that the Croatian wine Muskat Momjanski (Moscato di Momiano) had received the European protected designation of origin. The name combines the name of a grape variety (Muscat/Moscato) and the name of the geographical area (Momjanski/di Momiano) after Momjan, which is in the northern part of the beautiful Istrian peninsula, famous for its popular wines.
