

EARTHBOUND

PET

2024 - 2025

OUR STORY

Earthbound is a family run business with over 30 years of experience in the textile manufacturing industry. In our development, the business quickly became a market leader in setting new trends and designs, placing great emphasis on quality control alongside customer service. This working ethos and meticulous attention to detail founded our reputation within the market.

Our clients in the textile clothing industry struggled to find good quality beds for their beloved pets, making special requests to create one for them. Realising our furry companions deserve no less, this paved the way to bring our expertise in making the best for them. That was around 20 years ago.

Earthbound is now an established market leader in the UK pet industry, well known for our high-quality British made pet bedding, building an extensive catalogue of lovely things for dogs. All inspired by a British sense of style, yet with a global appeal, featuring, country, neutral and patterned designs.

We pride ourselves in making the entire range of bedding, coats, blankets, bandanas, and toys in-house by Earthbound whilst, making new inroads into using more sustainable production methods and fabrics with OEKO-TEX certification.

Our emphasis on innovation precedes by ensuring we create outstanding quality beds, through generous thermal fibre filling, thus enhancing the beds cosiness. We select premium upholstery grade fabrics for greater durability and were one of the first to introduce Tweed range of fabrics in pet products more than a decade ago, which has now become our Signature Collection.

Additionally, our best-selling Round Bed, offers a distinct shape, with firm inner cushions, elevating the comfort level for your precious one. All our products are made with happy dogs (cat friendly too) in mind.

With the expertise in leather craftsmanship alas remaining outside of the UK, we carefully sourced a leading manufacturer in producing leather goods to a premium standard within the EU. Made with the finest materials, our collars, leads and harnesses beautifully coordinate with the rest of the Earthbound range. Most of all, they are comfortable for the dogs and aesthetically pleasing for the humans.

We are passionate in upholding our commitment to innovation and design, with the purpose of creating functional and stylish products for your adored pets. Hence, Earthbound is now stocked in over 350 stores around the United Kingdom and across several countries in Europe.

Dogs are at the forefront of our minds when we design, source materials, and sew. In a world where humans give themselves the best of the best, we strongly believe our furry friends are worthy of the same comforts.

It's simple, humans love dogs... this is our way of loving them back.

WASHING INSTRUCTIONS

Washing Instructions for Beds

To maintain a bed in top condition, we recommend airing the bed frequently by turning it upside down, in addition to keeping it clean as advised. Spot cleaning, whenever necessary, is the perfect way to keep the bed in prime condition. Use a well-wrung cloth, first soaked in warm water with pet-safe laundry detergent, gently lift or, in circular motions, remove any marks or stains. Give the dog bed a good shake regularly, plumping up parts of the bed, like a pillow, to keep the shape and breathe life into the product.

Round Beds

- Machine wash only at 30 degrees, on a low spin speed and flat dry only.
- When spot cleaning, do not use harsh cleaning products, and do not rub.
- If dry cleaning, go with an alternative green dry cleaner, either wet cleaning or liquid CO2 and check [here](#) beforehand if they use pet-safe detergents/solvents.
- We advise against over-washing to maintain the shape of the bed.
- Do not iron and tumble dry.

Rectangular Beds

- Machine wash cover only at 30 degrees, on a low spin speed and line dry only. Fillers are sponge wipe only and air dry.
- When spot cleaning the cover or filler, do not use harsh cleaning products and do not rub.
- If dry cleaning (cover only), go with an alternative green dry cleaner, either wet cleaning or liquid CO2 and check beforehand if they use pet-safe detergents/solvents.
- Do not iron and tumble dry.

Flat Cushion Beds

- Machine wash cover only at 30 degrees, on a low spin speed and line dry only. Fillers are sponge wipe only and air dry.
- When spot cleaning the cover or filler, do not use harsh cleaning products and do not rub.
- If dry cleaning (cover only), go with an alternative green dry cleaner, either wet cleaning or liquid CO2 and check beforehand if they use pet-safe detergents/solvents.
- Do not iron and tumble dry.

Crate Mats

- Sponge wipe only.

Crate Mats with Removable Covers

- Machine wash only at 30 degrees, on a low spin speed and line dry only. The filler cannot be washed or sponge wiped.
- When spot cleaning, do not use harsh cleaning products and do not rub. Spot clean on the waterproof material only.
- If dry cleaning (cover only), go with an alternative green dry cleaner, either wet cleaning or liquid CO2 and check beforehand if they use pet-safe detergents/solvents.

- Do not iron and tumble dry.

Terrier Tunnels

- Machine wash only at 30 degrees, on a low spin speed, either flat dry or line dry.
- When spot cleaning, do not use harsh cleaning products and do not rub.
- If dry cleaning, go with an alternative green dry cleaner, either wet cleaning or liquid CO2 and check beforehand if they use pet safe detergents/solvents.

Care Instructions for Wax Dog Coats

1. To avoid destroying the special wax oil proofing in this fabric, this garment must not be dry cleaned or machine washed.
2. To remove any loose dirt, use a soft-bristled brush. Spot clean with clean cold water using a sponge and hang to dry at normal room temperature.
3. To re-wax the fabric, place the item on a hard flat surface and remove any dirt/dust using a soft-bristled brush, then lightly clean the fabric using a sponge and clean cold water, then air dry. Once dried, apply the fabric wax evenly using a sponge or soft cloth, and hang to dry for at least 24 hours in a dry and warm room.
4. Do not use soap detergent or cleaning fluids. Should the garment be accidentally contaminated with petrol, acid, ammonia, manure, or other chemicals, wash down as (2).
5. Excessive grit and dirt can be detrimental to the garment, accelerating damage by abrasion; therefore, to prolong the life of your garment, periodic washing as (2) above is advocated.
6. Regular application of proofing wax will maintain the wash-proof qualities of the fabric and keep the garment in good condition, thereby extending the life of the garment.

ROUND BEDS

Unique from our tweed ranges, the Traditional Tweed Bed in Steel Grey is made using a soft but durable brushed polyester fabric combined with a tweed fabric crafted from a wool blend.

Please note: Measurements for Round Beds may vary slightly.

BASE OF BED

The cover fabric to the bed is easily removable with the use of a zip around the base.

REMOVABLE CUSHION COVER

The central cushion within the bed has a removable cover with the use of a zip

3—CHANNEL TECHNOLOGY

Three separate channels prevent the cushion lumping to one side for heavier dogs (excluding small).

The Rectangular Removable Camden range of beds is produced from a tightly woven polyester upholstery grade fabric making the beds very hard-wearing and durable, comfortable to please any pet. With a homely look the bed features a removable cover design for ease of washing. The covers can be conveniently removed via a concealed zip inside for easy washing.

CRATE MATS

Our waterproof Crate Mat range is filled with a bonded thermal fibre padding suitable for multiple environments, made to fit most standard sizes cages on the market today.

Primarily designed as a dog crate mat, they can also be used as a general pet cushion for use in and around the home as well as outside. They are often used in the boot of vehicles to ensure extra comfort for your pet whilst ensuring the cleanliness of your boot is protected.

Made from a premium heavy duty PVC fabric in a non-removeable design, the cage mat can be sponge cleaned with cold water and hung to dry at room temperature.

DOG COATS

The Tweed Sherpa Dog Coat is produced from tweed manufactured by carefully choosing multiple-coloured yarns to achieve a dynamic pattern and colour distinct to Earthbound. This results in an extremely warm and hard-wearing fabric with the interior of the dog coat lined with a soft cosy Sherpa fabric.

Please note: Measurements for Dog Coats may vary slightly.

With great designs, our range of dog coats place a huge focus on quality, from the thread used to stitch together the seams through to the grade of the fabrics on the coat. The Premium Wax Dog Coat is made from an antique wax cotton fabric lined with a thermal quilted poly-cotton on the inside.

The authentically aged appearance gives the lived-in look treated to provide a degree of water resistance. The range also features metal eyelets and an antique brass finished buckle.

See page 5 for care instructions.

LEADS & COLLARS

The Soft Country Leather Training Lead is produced from strong cow leather that is amazingly soft. The lead is 2.4 metres in length with a variety of uses due to having double trigger hooks. It can be used as a standard every day lead, long lead or a short lead for heelwork or obedience training. The lead can also be worn over the shoulder to enable hands free walking.

The Rope Slip lead is made from a strong and durable nylon material that is weather proof and easily cleaned. The nylon is soft to touch adding comfort for the handler. The slip lead is designed as a quick easy way to control your dog without the need for a collar. The slip ring sits between a leather adjustable stopper to prevent your dog slipping the lead and an adjustable knot to prevent choking when pulling.
