

La boutique della ristrutturazione

PANNELLI ACUSTICI

Studiati appositamente per migliorare il livello di comfort sia negli ambienti pubblici che privati:

- PANNELLO K: un rivestimento murale in tessuto con finta pelle scamosciata di alta qualità montata su un supporto in schiuma ad alto assorbimento
- PANNELLO V: vinile microforato spalmato su supporto rivestito in feltro acustico, ad alto impatto resistenza, facilità di manutenzione ed igiene, posa rapida e preparazione della parete semplificata
- 3DPOLY: è stata sviluppata questa nobilitazione dello stampaggio, finora effettuata solo su superfici tessili per strutturare in 3D una superficie vinilica flessibile assemblata su un vello acustico.
