COMPANY PROFILE

Lambrian provides professional development & corporate training, proudly rooted in both the United Kingdom and the United Arab Emirates. Established to offer high-quality training programmes, Lambrian Training has grown to become a recognised name across two markets, holding licences in both regions. Rooted in the rigorous educational standards of the UK and at home in the forward thinking business environment in the UAE, Lambrian occupies the overlapping space between these global hubs of learning and business innovation.

THE OFFER

We offer a wide range of tailored courses, including Management, Finance, Strategy, Leadership, AI, IT, Professional Development. Our programmes are delivered by seasoned trainers who bring industry expertise and real-world insights, ensuring that participants gain skills that are immediately applicable. Our dual licensing in the UK and UAE, provides the flexibility to meet both local and international needs, making us a trusted partner for individuals and organisations seeking specialisation and growth through education.

MISSION

*Delivering tailored, industry-relevant training to share practical skills and knowledge.
We foster personal and professional growth by providing flexible learning solutions to meet the needs of diverse industries, always ensuring excellence.*

UNIQUE SELLING POINTS

Expert-Led Courses

Trainers must have above ten years experience in the field, preferably with PhD).

Certified Programmes

Central Awards UK ®.

Training tailored

Meeting individuals' and employers' requirements.

PER SCIENTIAM AD VICTORIAM

OUR PHILOSOPHY

At Lambrian Training, our **philosophy is centred on delivering expert-led, certified programmes** that are tailored to meet the specific needs of individuals and organisations. Our trainers, with over ten years of industry experience and often holding PhDs, ensure that every course is grounded in rigorous research and practical application. **Certified by Central Awards UK[®]**, our programmes are designed to be flexible and adaptable, offering accessible, industry-focused solutions that address real-world challenges.

We take a **consultancy-like approach**, turning training needs into valuable certifications, while our trainers' internationally recognised publications further enrich the learning experience.

Rooted in the UK's high educational standards and inspired by the forward-thinking business environment of the UAE, Lambrian Training offers a unique blend of **research-based, personalised, and industry-relevant development programmes**.

LAMBRIAN TRAINING METHODS

At Lambrian Training, we adopt a blend of proven methods designed to ensure that participants gain both theoretical knowledge and practical skills. Our approach is flexible and adaptive, aligning with the unique needs of each participant and organisation. Here are the key methods we employ:

Expert-Led Instruction

Our courses are delivered by trainers with over ten years of experience, many of whom hold PhDs. This ensures participants benefit from high-level expertise, with insights into both industry trends and academic research.

Customised Content Delivery

We tailor our training to the specific needs of individuals and organisations, ensuring that the content is directly relevant to the participant's professional context. This allows for highly specialised learning experiences that focus on solving actual business challenges.

Interactive Learning

We encourage active participation and engagement throughout our sessions. This approach allows participants to discuss their ideas, ask questions, and benefit from peer-to-peer learning. Interactive tools, such as discussions and Q&A, foster a dynamic learning environment.

Industry-Focused Case Studies

We incorporate real-world scenarios and case studies relevant to the specific industries of our participants. This method enables learners to apply theoretical concepts to practical situations, enhancing the relevance and applicability of the training.

Research-Based Teaching

Our training is rooted in evidence-based methodologies. Every programme is built upon rigorous research and informed by the latest industry findings, ensuring participants receive cutting-edge knowledge and strategies.

Consultancy-Like Approach

We provide bespoke, consultancy-style training that addresses specific business problems and operational needs. By doing so, we offer solutions that participants can immediately implement in their professional environments.

Certification and Recognition

Each course is certified by Central Awards UK[®], providing participants with official recognition of their learning. This ensures that the skills and knowledge gained are validated and can be leveraged for career advancement.

TRAINING LIST

AUDIT

- IT Audit for Non-IT Auditors
- Risk-Based Approach
- Performing High-Impact Risk Assessment
- Managing Quality for Audits
- Internal Control for Auditors
- Preparing Final Audit Reports and Recommendations
- Preparing Audit Strategies
- Manage Audit Compliance and Risk
- Audit and Data Analytics

ADVANCED MASTERCLASSES

- Auditing Data Governance Frameworks in Big Data Environments
- Advanced Financial Statement Audits: Analysing Cryptocurrency Holdings and Transactions
- Audit Strategies for Auditing Remote Work Policies
- Evaluating Internal Audit's Role in Agile Project Management Methodologies
- Advanced Techniques for Auditing Dynamic Risk Assessment Models
- Auditing ESG Data Quality and Reporting Accuracy (Detecting Greenwashing)
- Auditing Advanced Transfer Pricing Mechanisms in Global Corporations
- Incorporating Machine Learning Insights into Risk-Based Audit Planning
- Auditing the Efficiency and Accuracy of Corporate Treasury Functions under Basel III
- Evaluating the Impact of Digital Transformation on Internal Controls Audits
- Auditing Mergers & Acquisitions: Due Diligence and Post-Acquisition Integration Audits
- Audit of Dynamic Liquidity Risk Management in Volatile Markets
- Auditing Cross-Border Tax Compliance for Multinational Entities
- Auditing for Compliance with the Latest IFRS Updates and Interpretations
- Assessing Zero Trust Architecture in IT Audits
- Evaluating Blockchain Consensus Mechanisms in Smart Contract Audits
- Auditing Zero-Knowledge Proof Protocols in Decentralised Finance (DeFi)
- Audit Automation using Natural Language Processing (NLP) in Report Generation
- Advanced Auditing of AI-Driven Autonomous Risk Detection Systems
- Forensic Audit Techniques for Fraud Detection
- Continuous Auditing and Real-Time Risk Monitoring
- Auditing Complex Financial Instruments and Derivatives
- Advanced Auditing of Internal Models for Basel III Compliance

TRAINING LIST

QUALITY

- Understand Quality at Work
- Quality Assure Own and Others Work

ADVANCED MASTERCLASSES

- Advanced Statistical Process Control (SPC) for Quality Audits
- Quality Management in Agile and Lean Environments
- Applying Six Sigma Tools for Root Cause Analysis in Quality Audits
- Auditing Quality in ISO 9001:2015 for Continuous Improvement
- Quality Assurance in Regulated Industries: Meeting FDA and ISO Standards
- Implementing Total Quality Management (TQM) in Global Organisations
- Advanced Risk-Based Thinking in ISO 31000 Quality Audits
- Auditing Quality in Smart Manufacturing and Industry 4.0 Settings
- Evaluating the Impact of Artificial Intelligence on Quality Management Systems (QMS)
- Audit of Supplier Quality Management Systems in Complex Supply Chains
- Quality Assurance for Sustainable Manufacturing and ESG Compliance
- Advanced Techniques for Auditing Design Controls in Product Development
- Assessing Quality Metrics Using Data Analytics in Manufacturing Audits
- Auditing Quality Culture in Large Organisations: Measurement and Improvement
- Quality Assurance in Pharmaceuticals: Auditing Good Manufacturing Practices (GMP)
- Auditing Software Quality Assurance (SQA) in DevOps Environments
- Advanced Quality Assurance for Digital Transformation and Automation
- Assessing Quality Risk Management (QRM) for Product Lifecycle Management
- Auditing Continuous Improvement Initiatives in Kaizen and Lean Frameworks
- Audit of Process Capability and Performance Metrics in High-Precision Manufacturing

TRAINING LIST

PUBLIC FINANCE

- Public Investment Finance
- Government Revenue Diversification
- Public Debt Finance
- Introduction to Public Finance

ADVANCED MASTERCLASSES

- Advanced Fiscal Policy Analysis: Evaluating Public Expenditure Efficiency
- Public-Private Partnerships (PPP) in Infrastructure Finance: Risk Management and Auditing
- Auditing Public Investment in Green Bonds and Sustainable Finance Initiatives
- Assessing the Financial Impact of Social Spending Programs: Tools and Techniques
- Advanced Sovereign Debt Restructuring and Risk Management Strategies

- Sustaining Long-Term Success: Leadership Strategies for Continuous Improvement

TRAINING LIST

IT SKILLS

- Advanced MS Excel
- Cybersecurity Fundamentals
- Introduction to Cloud Computing
- Introduction to IT Project Management
- Basic IT Support and Troubleshooting
- Introduction to Artificial Intelligence and Machine Learning
- Introduction to Blockchain Technology
- Ethical Hacking Basics
- Virtualization and Virtual Machines
- Office 365 and Microsoft Teams for Remote Work
- Intro to Internet of Things (IoT)
- Basic Automation with PowerShell

ADVANCED MASTERCLASSES

- Advanced Data Analysis and Modelling with MS Excel: Power Query and Power Pivot
- Advanced Cybersecurity: Penetration Testing and Vulnerability Management
- Cloud Security and Compliance: Best Practices for AWS, Azure, and Google Cloud
- IT Project Management Masterclass: Agile, Scrum, and DevOps Integration
- Advanced IT Support: Diagnosing and Troubleshooting Complex System Issues
- Deep Learning Techniques in Artificial Intelligence: Neural Networks and Applications
- Smart Contracts and Decentralised Applications (dApps) in Blockchain Technology
- Advanced Ethical Hacking: Exploit Development and Reverse Engineering
- Virtualization Management: Advanced Techniques for VMware and Hyper-V
- Mastering Microsoft 365: Power Automate, SharePoint Integration, and Security
- IoT Security and Data Management: Best Practices for Device Integration
- Advanced Scripting and Automation with PowerShell for IT Professionals
- Advanced Data Visualisation and Dashboards in MS Excel
- Configuring and Managing Cloud Infrastructure with Kubernetes
- Securing Hybrid Cloud Environments: Advanced Concepts and Tools
- Artificial Intelligence in Business: Implementing AI Solutions for Efficiency
- Blockchain in Supply Chain: Enhancing Transparency and Security
- Advanced Virtualisation Techniques for Optimised Resource Management
- Collaboration and Security in Microsoft Teams: Managing Remote Workforce
- Edge Computing and IoT: Harnessing Data at the Source for Real-Time Decisions

TRAINING LIST

RISK MANAGEMENT

- Developing Strategic Risk Assessment
- Risk Management in Finance

ADVANCED MASTERCLASSES

- Advanced Techniques in Enterprise Risk Management (ERM) Implementation
- Strategic Risk Assessment in Global Business Operations
- Quantitative Risk Modelling and Simulation for Financial Institutions
- Cyber Risk Management and Mitigation in Hybrid and Cloud Environments
- Evaluating and Managing Reputational Risk in Corporate Governance
- Advanced Risk-Based Decision-Making: Incorporating AI and Data Analytics
- Auditing and Managing Supply Chain Risk in Complex Global Networks
- Stress Testing and Scenario Analysis for Financial Risk Management
- Operational Risk Management: Strengthening Controls in Agile Organisations
- Risk Management for ESG Investments: Evaluating Long-Term Environmental and Social Impact
- Financial Risk Management with Derivatives and Hedging Techniques
- Strategic Crisis Management: Preparing for and Responding to Unforeseen Risks
- Compliance Risk Management: Aligning with Regulatory Changes in Financial Markets
- Insurance Risk Management: Advanced Strategies for Managing Actuarial Risks
- Integrating Risk Management into Corporate Strategy: Advanced Techniques
- Third-Party Risk Management: Auditing and Mitigating Supplier Risks
- Liquidity Risk Management in Volatile Market Conditions
- Risk Management in Mergers and Acquisitions: Ensuring Post-Merger Stability
- Advanced Techniques for Identifying and Managing Emerging Risks
- Strategic Risk Governance: Enhancing Board Oversight and Risk Culture

TRAINING LIST

AGRICULTURE

- Risk Management and Innovation in Agricultural Investment for Arid Regions
- Advanced Risk Management Strategies in Agriculture: Climate Change and Market Volatility
- Innovative Approaches to Sustainable Agricultural Development in Arid Regions

ADVANCED MASTERCLASSES

- Agricultural Risk Management: Advanced Hedging Strategies for Market Volatility
- Climate-Resilient Agriculture: Strategies for Mitigating Drought and Heat Risks
- Leveraging AgriTech for Precision Farming in Arid Regions
- Advanced Irrigation Systems and Water Management for Sustainable Farming
- Sustainable Agriculture Finance: Evaluating Impact Investments in Arid Zones
- Carbon Sequestration in Agriculture: Risk Management and Financial Incentives
- Agricultural Supply Chain Risk Management: Enhancing Resilience and Efficiency
- Adopting Circular Economy Models in Agricultural Production
- Managing Pest and Disease Risks in Arid and Semi-Arid Agriculture
- Innovative Techniques for Soil Health and Erosion Control in Drylands
- Risk and Return in Agri-Business: Developing Strategic Investment Portfolios
- Blockchain for Agriculture: Ensuring Transparency and Reducing Risk in Supply Chains
- Precision Agriculture and Data-Driven Risk Management for Arid Environments
- Advanced Crop Insurance Strategies for Managing Climate Change Risks
- Sustainable Livestock Management: Reducing Risk and Improving Productivity in Arid Zones
- Renewable Energy Integration in Agriculture: Reducing Operational Risks
- Risk Management in Sustainable Aquaculture for Arid and Coastal Regions
- Biotechnology and Genetic Engineering in Agriculture: Managing Innovation Risks
- Assessing the Impact of Government Policies and Regulations on Agricultural Investment Risk
- Smart Agriculture: Risk Management with AI and IoT for Arid Regions
