Profile

Didier Maxulin Name Computer Engineer | Networking Specialist | Bilingual (English & French) IT and online marketing specialist with expertise in WordPress development, SEO, and network engineering to enhance digital presence and technical infrastructure. Proficient in delivering integrated solutions including hardware troubleshooting, software development, and customer support to optimize operational performance. Focused on leveraging multidisciplinary skills to drive innovation and contribute to scalable business growth.

Employment History

Freelancer, Self Employed
DEC 2018 — PRESENT

- Providing a wide range of digital and technical solutions, including SEO, content

writing, WordPress website development and maintenance, hardware troubleshooting, and security camera installation. With a strong background in both online marketing and IT services, I help businesses enhance their online presence while ensuring smooth technical operations.

Freelance, Bluehost, Buea
AUG 2022 — SEPT 2023

- Provide part-time freelance services specializing in WordPress website development, search engine optimization (SEO), and community management. Design and develop responsive, user-friendly websites tailored to client needs while optimizing content and structure to improve online visibility. Manage digital communities, support brand engagement, and implement strategies to enhance audience growth.

Student Intern, Revival Ltd., Buea
JUL 2022 — SEPT 2022

- Network technician responsible for designing and creating network systems and solution

Student Intern, Touko Banix, Buea
JUL 2021 — SEPT 2021

- Network Engineer
- Software Internship

- During this internship, I expanded my expertise beyond networking by working on a mobile app that connects students with hostel owners for seamless university housing rentals. Gained hands-on experience in software development, system integration, and user-centric solutions, enhancing my ability to bridge networking and software services.

Hardware Maintenance Technician, Revival Ltd, Buea, Cameroon
JAN 2023 — JUN 2024

- Performed installation, diagnostics, and repair of computer hardware systems including desktops, laptops, network devices, and printers. Identified hardware failures, replaced components such as RAM, HDD/SSD, power supplies, and motherboards, and ensured systems operated efficiently. Conducted preventive maintenance, system upgrades, and supported users with technical troubleshooting while maintaining accurate service documentation.

Networking Trainer, Revival Ltd

JUL 2026 — SEPT 2026

- Conducted structured training sessions in networking fundamentals, covering TCP/IP concepts, subnetting, LAN configuration, router and switch setup, and troubleshooting techniques. Supervised practical lab activities, supported students in diagnosing connectivity issues, and ensured proper implementation of basic network security practices. Maintained training materials and assessed student performance.

Secretary, Touko Banix (Startup IT Company)

JAN 2025 — AUG 2025

- Provided executive and administrative support within a fast-growing IT startup environment. Managed scheduling, internal communications, documentation, and client correspondence while assisting with daily operational activities.

Housekeeping Assistant (Holiday Employment), Mountain Hotel

AUG 2025 — JAN 2026

- Began as a cleaning staff member and progressed to independently managing guest room preparation and maintenance. Maintained high standards of cleanliness, organization, and presentation, ensuring rooms were properly dressed and ready for occupancy.

Education

Bachelor's Degree in Computer Engineering, University of Buea

JAN 2020 — DEC 2023

Bachelor's degree in Computer Engineering, Computer Systems Networking and Telecommunications, College of Technology Buea

SEPT 2020 — DEC 2023

Advance level, Science, Government Bilingual High School Limbe

SEPT 2017 — JUL 2019

Ordinary Level, Science, Government Bilingual High School Limbe

SEPT 2016 — AUG 2017

Postgraduate Degree, Entrepreneurship/Entrepreneurial Studies, Ascencia Business School
